ORAL COMMUNICATIONS

Mike Hunsaker, member of the public, addressed the Board thanking them for changing the start time of Board meetings to 5:00 p.m. He expressed his regret that General Manager Lamb is retiring; he has always found him to be helpful, very insightful and appreciated his encyclopedic knowledge of water and policies. He will be missed.

He stated he has attended three meetings at which the San Diego County Water Authority (SDCWA) discussed the Metropolitan Water District (MWD) negotiations, water changes, and legal actions. At one of the meetings, there was even a MWD representative. He is less than thrilled that the SDCWA isn’t taking more aggressive action against proposed rate changes and the lack of any attempt by MWD to allegedly provide escrow amounts of money in the likelihood that there will be any decision in the appellate court that goes against it. It is also frustrating to have to buy potable water and then dump it into a reservoir. This has caused some consternation in the public in
general. It seems like there are many different options for injunctions, relief and such to provide some degree of action that the SDCWA can do.

He further stated that Director Evans has relayed that there is quite a bit of interest in the SDCWA and the District in counteracting these things. He would appreciate an update on what the SDCWA intends to do about it. At the last meeting it was mentioned that MWD’s water rates would increase 4%, but there was a lot of creative accounting concerning that; in some cases it was 6% to 45%. It would seem that if we are going to accept increased rates, at least put it into an escrow account so that it doesn’t disappear down some MWD rat hole and something is done about this water wastage. If possible, we could sell our water to someone else so we can at least get some recompense. If the rest of the state is dry, maybe that water should be shuttled elsewhere where it could do some good, not here where we can’t store it and we pollute it by putting it into a reservoir. He thanked the Board.

President Sannella stated that the CEO of the SDCWA attended a District Board meeting recently and presented information on many of the items Mr. Hunsaker commented on. He suggested Mr. Hunsaker review the recording of the meeting on the District’s website.

ACTION ITEMS

DROUGHT UPDATE

Public Information/Conservation Supervisor Robbins stated the snowpack in the northern Sierra Nevada was measured at near 100% on April 1. He provided the following update for the month of March:

- The District’s March 2016 water production decreased 12% from March 2014 and 22% from March 2013.
- In March 2016, customers used 70.5 gallons per day compared to March 2015, when customers used 92.4 gallons per day.
- On March 9, 2016, the State Water Resources Control Board changed Vallecitos' water conservation target to 16% due to the District's direct connection to the seawater desalination plant in Carlsbad. Since the mandate, Vallecitos has achieved a 25.7% water conservation reduction.

General discussion took place.

PROPOSED REPLACEMENT OF RESOLUTION NO. 1481, “RESOLUTION OF THE BOARD OF DIRECTORS...ESTABLISHING PURCHASING POLICIES AND PROCEDURES FOR THE DISTRICT”

Finance Manager Fusco stated that at the March 16, 2016 Board meeting, the Board concurred with the Finance Committee’s recommendation to add a section to the Resolution requiring vendors providing annual services or materials to the District in the amount of $100,000 or greater in a single fiscal year, to competitively bid against other vendors offering similar services or materials no less than once every five subsequent fiscal years. The Board concurred with the Finance Committee and requested a new resolution be presented including the proposed section for Board action.

Staff recommended the Board adopt the new resolution.

President Sannella stated as time permits, the re-bidding process for vendors that qualify could take place over the next 6 to 12 months with the exception of sole source suppliers.

16-04-12 MOTION WAS MADE by Director Martin, seconded by Director Hernandez, and carried unanimously, to adopt the resolution.

Resolution No. 1484 - The roll call vote was as follows:
TICKET DISTRIBUTION POLICY RESOLUTION

Assistant General Manager Scaglione stated that at the April 4, 2016 Board meeting, Legal Counsel Scott advised the Board of a new Fair Political Practice Commission (FPPC) requirement to post ticket policies and Form 802 (used to identify persons who receive tickets to events and the purpose of the event) to the District’s website while also providing a link to the FPPC. A draft resolution addressing the FPPC requirement for the distribution of tickets and passes to events, and defining the process and procedures for compliance, was presented for the Board’s consideration.

Staff recommended the Board adopt the ticket distribution policy resolution.

General discussion took place.

16-04-13 MOTION WAS MADE by Director Martin, seconded by Director Hernandez, and carried unanimously, to adopt the resolution.

Resolution No. 1485 - The roll call vote was as follows:

PUBLIC COMMENT TIME LIMITS

Mike Hunsaker, member of the public, addressed the Board stating that after reviewing the material, it wasn’t clear whether or not the Board was planning an action tonight or whether the idea was to reduce time limits. That should have been clearer. It appears if the Board takes action, they will be within the Brown Act, but he believes if residents and time limits are restricted, it would not be in the spirit of transparency. The information provided in the packet doesn’t really tell him where the Board is planning to go. He thanked the Board.

Assistant General Manager Scaglione stated that at the March 16, 2016 Board meeting, Director Hernandez requested the topic of time limits for public comment and presentations be placed on a future agenda for discussion.

Staff surveyed 15 other agencies for policy regarding limits on comments during oral communications and for specific agenda items. Of the 13 agencies that responded, 10 limit public comment to three minutes per speaker, one to five minutes, and two do not
limit time allotted to public comment. Some agencies list the policy on the speaker request form and some on the Board agenda.

President Sannella commented that the District currently does not have a time limit for public speakers. Assistant General Manager Scaglione confirmed this and stated current policy is that it’s at the Board President’s discretion.

General discussion took place.

During general discussion, General Manager Lamb stated the intent of a time limit for public comment is to ensure that the people’s business moves forward in a reasonable time frame. The three-minute time limit would not apply to scheduled presentations. A written policy is not necessary; however, the time limit will be stated on future Board agendas. A draft statement will be brought back at the next regular Board meeting for the Board’s consideration.

**16-04-14 MOTION WAS MADE** by Director Martin, seconded by Director Hernandez, and carried unanimously, **to direct staff to bring back a policy statement regarding a three-minute time limit for public speakers, subject to the President’s discretion.**

**BOARD PRESENTATION MATERIALS**

Mike Hunsaker, member of the public, addressed the Board stating he supports this idea. Presentation materials are an important factor in determining what to do from the public standpoint. He added that there was an important presentation not too long ago about rates and rate philosophy, and there wasn’t anything in the Board packet. That should have been in the packet. It’s important for the public to see these materials as well as the Board. He would also like documents that can be accessed on the District’s website.

General Manager Lamb stated the general rate study information presented at the Board meeting Mr. Hunsaker referred to was made available on the District’s website as supplemental information. He explained that legally, when information is made available to the Board, it must be simultaneously made available to the public as well.

General discussion took place.

During general discussion, General Manager Lamb stated that PowerPoint presentations generally consist of bullet points, whereas detailed information is included in the Board packet.

Director Martin asked that PowerPoint presentations as well as all information necessary to make policy decisions be provided to the Board 48 hours prior to the Board meeting. If this isn’t possible, the agenda item should be tabled to the next Board meeting.
16-04-15 MOTION WAS MADE by Director Martin, seconded by Director Hernandez, and carried unanimously, to direct staff and applicants to provide all information and PowerPoint presentations to the Board 48 hours prior to the Board meeting or the item will be tabled to the next Board meeting.
