ACTIONS ITEMS

PUMP ZONE CHARGES UPDATE AND ALTERNATIVES

General Manager Pruim stated the Board agreed to increase pump zone charges to recover electricity costs incurred by the District in each pump zone on January 18, 2017. At the March 15, 2017 Regular Board meeting the Board heard the concerns of several pump zone customers, requested additional analysis, and directed staff to hold a public workshop on April 20.

General Manager Pruim provided a brief update on pump zone charges as follows:

- Previous Actions
- District Pump Zone Map
- Costs Associated with Pump Zones
- Issue Summary
- Allocation Considerations
- Charge Allocation
- Timing of Charges
- Staff Recommendations
General Manager Pruim clarified that he was not seeking specific direction from the Board at this meeting as that is the purpose of the April 20 workshop.

Staff recommended the District collect 95% of pump zone electrical costs through pump zone charges, allocating those electrical costs to customers based on the height water is being lifted (Weighted Lift Volume Approach.) General Manager Pruim recommended the Board direct staff to notify only pump zone customers of the April 20 workshop as they will be affected with the bulk of the pump zone charge increase.

General discussion took place during which Director Sannella asked what caused the deficit of electrical costs and how is the District going to clearly articulate this to its customers.

General Manager Pruim stated there were periods of time when the District was over collecting pump zone charges which created a balance. To correct this, charges were lowered to draw down the balance and at the same time electrical costs were increasing, drawing from the balance as well. As discussed at the January 18 meeting, the correction was made; however, it was made too late.

General discussion took place during which the Board directed staff to notify only the pump zone customers of the April 20 workshop.

REPORTS

GENERAL MANAGER

General Manager Pruim reported the following:

- The District has completed all of its mandated school testing for lead. The results have been provided to the school district. The school district will take appropriate action as needed.
- Staff will be replacing poly water service lines in Twin Oaks Valley Road this evening beginning at 10:00 p.m.
- The District will be resuming its water line flushing program which was temporarily suspended during the drought.

Director Evans distributed a summary of recent water bills and stated that since 1991, the SDCWA has sponsored 37 water bills that have been signed into law. She briefly discussed two of eight measures relating to long-term water efficiency that will be considered at the Assembly’s Water, Parks and Wildlife Committee meeting on April 25.

Director Evans stated a Special Committee meeting is scheduled for April 13 and a Board meeting is scheduled for April 27.

DIRECTORS REPORTS ON TRAVEL/CONFERENCES/SEMINARS ATTENDED

President Elitharp reported on his attendance to the Council of Water Utilities meeting on March 21.

OTHER BUSINESS

None.

DIRECTORS COMMENTS/FUTURE AGENDA ITEMS

Director Martin commented that Board members should be allowed to attend SDCWA and Encina Wastewater Authority Board meetings as a member of the audience if they choose to. Legal Counsel Jackson cautioned it is important that the attendance in those instances not be participation, as there could be the potential for a Brown Act violation.

Director Sannella requested an update on District Resolution No. 1484 relating to competing contracts with vendors that the District pays over $100,000 annually.
