Transparency Certificate of Excellence Awarded to Vallecitos Water District

San Marcos, CA — The Vallecitos Water District received the District Transparency Certificate of Excellence by the Special District Leadership Foundation (SDLF) in recognition of its outstanding efforts to promote transparency and good governance. California SDLF Public Affairs Field Coordinator, Chris Palmer, and California SDLF Board Member, Jo MacKenzie, were on hand to recognize Vallecitos for completing the essential requirements.

“This award is a testament to Vallecitos Water District’s commitment to both open and transparent government,” said Jim Hernandez, Board President. “The entire District is to be commended for their contributions that empower the public with information and facilitate engagement and oversight.” To receive the award, a special district must demonstrate the completion of essential governance transparency requirements, including conducting ethics training for all board members, properly conducting open and public meetings, and filing financial transactions and compensation reports to the State Controller in a timely manner.

For more than 60 years, Vallecitos Water District has been the community’s water and wastewater specialists, providing water, wastewater, and reclamation services to San Marcos; the community of Lake San Marcos; parts of Carlsbad, Escondido and Vista and other unincorporated areas in north San Diego County. The Vallecitos Water District currently serves a population of more than 100,000 within its 45-square-mile boundary.

SDLF is an independent, non-profit organization formed to promote good governance and best practices among California’s special districts through certification, accreditation, and other recognition programs.

Special districts are independent public agencies that deliver core local services to communities, such as water, wastewater treatment, fire protection, parks and recreation, healthcare, sanitation, mosquito abatement, ports, libraries, public cemeteries and more. Districts are established by voters and their funding is approved by voters to meet specific needs through focused service. They can be specially molded to serve large regions or small neighborhoods depending on the need.
